EXPERIENCE

ACROSS THE KINGDOM

Since 2006, PPCO has continued the ambitions to become one of the leading contracting company in The Kingdom and still having a strong viewpoint in KSA's regions, and with multiple projects, PPCO will maintain its key position in the market.

+20 YEARS

ABOUT US

PPCo is the premier contracting company in the Kingdom of Saudi Arabia, renowned for our unwavering commitment to excellence since our establishment in 2006. With a steadfast dedication to quality and innovation, we have emerged as industry leaders, setting new standards in construction and engineering across the Kingdom. Our impressive track record includes over 150 successful projects valued at over 3 billion Riyals, solidifying our position as a verified and qualified government contractor (Class 1). We take pride in our integrated management system, aligned with ISO standards, ensuring the highest levels of quality, health, safety, and environmental compliance.

At PPCo, we bring your vision to life with our extensive experience, skilled workforce, and advanced technology. Our commitment to delivering exceptional results, on time and within budget, is the cornerstone of our success. With our customer-centric approach and a focus on exceeding expectations, we build strong foundations for success and foster long-term partnerships. Let us be your preferred choice for all your construction and engineering requirements in Saudi Arabia, and together, we will create remarkable projects that stand the test of time.

Vision

To be a Leading Construction Company in Saudi Arabia and The GCC.

Mission

To Deliver High-Quality, Cost-Effective Projects on Schedule with Motivated and Focused Teams.

OUR CORE VALUES

Commitment to Excellence:

PPCo is dedicated to delivering high-quality, cost-effective projects on schedule, driven by motivated and focused teams. We take great pride in our accomplishments and strive for continuous improvement.

Safety First:

PPCo prioritizes the health, safety, and well-being of its workforce, clients, and the community. We are passionate about fostering a strong safety culture and making a significant impact on safety within our projects.

Integrity and Transparency:

PPCo values honesty, fairness, and integrity in all dealings with employees, clients, vendors, and partners. We are committed to being responsive to clients requirements and maintaining open communication channels.

Client Partnership:

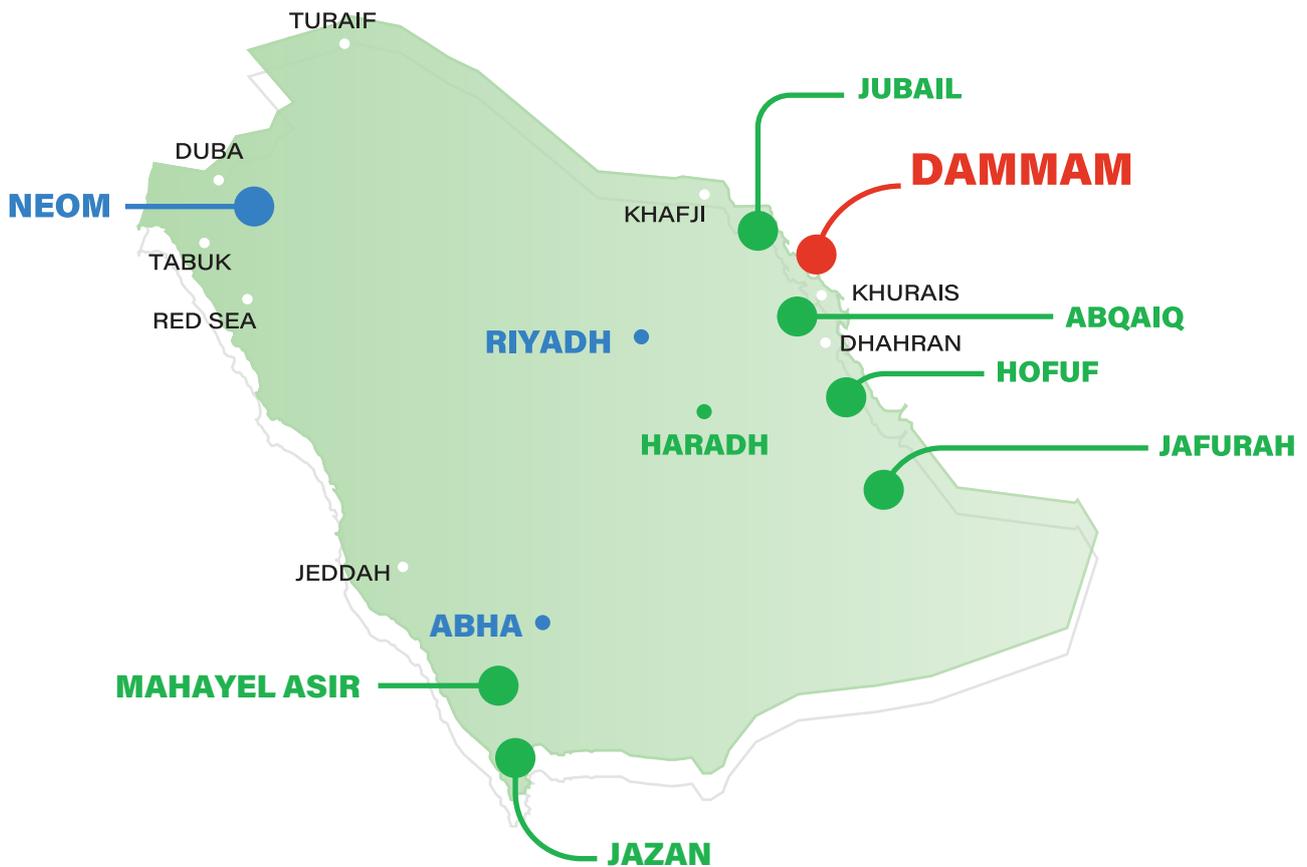

PPCo seeks long-term partnerships with clients, emphasizing service excellence and responsiveness to their needs. We prioritize nurturing strong relationships built on trust, mutual respect, and collaboration.

Environmental Stewardship:

PPCo is committed to minimizing its environmental impact and promoting sustainability in its operations. We adhere to all relevant environmental regulations and strive to implement best practices to protect the environment.

PPCo is a SAUDI ARAMCO and NEOM Qualified Contractor to facilities roads, bridges, asphaltting, concrete (Substructure and Superstructure), and landscape works in which we deliver projects with unmatched precision, and quality. PPCo also specializes in the construction and maintenance of major highways, motorways, complex bridges, viaducts and tunnels with related infrastructure. Our capabilities are reinforced by one of the largest privately owned fleets of construction plants and equipment inside the kingdom, which enables rapid mobilization of the necessary resources and projects. At PPCo, we take great satisfaction in offering our clients the best possible earthworks, and highest quality services. These services include geotechnical asolutions, land surveys and modifications, land surface through excavation, cutting and filling, and fill importation. To build heavy-duty roads, PPCo. uses the latest, most advanced techniques and methodologies. PPCo's team focuses on developing execution solutions that are as feasible, attainable, and cost-effective. We can provide value engineering and design assessment services in addition to building any structure associated with infrastructure projects. PPCo's team is also skilled and qualified to combine man-made elements with natural landscapes, such as street decoration, buildings, paving, layout for landforms, waterfalls, fountains, and the arrangement and planting of decorative plants and lighting.

QUALITY AND SAFETY

10M HOURS WITHOUT LTI

Safety and quality are non-negotiable at PPCo. Our commitment to excellence is reflected in our rigorous adherence to international standards, ensuring the well-being of our workforce and the communities we serve.

PPCo. has implemented an Integrated Management System (IMS) that adheres to the latest edition of international standards, including ISO 45001:2018 for health and safety management systems. Our commitment to excellence is reflected in our comprehensive IMS, which integrates these key standards to ensure the highest levels of quality, safety, and customer satisfaction across all our operations. By aligning with these internationally recognized standards, we continuously improve our processes, mitigate risks, and deliver exceptional results to our valued clients.

NEOM

ENVIRONMENTAL AND SUSTAINABILITY METHODOLOGY

PREPARATION OF DOCUMENTS

- ▶ Environmental Pre-Mobilization Walkover of the Site to identify the actual condition of the project and flora and fauna and any social receptors before mobilization.
- ▶ Construction Environmental and Social Management Plan (CESMP)
- ▶ Execute plans based on CESMP (Waste Management Plan, Noise Management Plan, Dust Management Plan, etc.)
- ▶ Marking of right of ways (Land Management Plan, etc.)
- ▶ Waste Management Service Providers using third party companies NCEC/MWAN approved.
- ▶ Strategies in reduction of Greenhouse Gas Emissions by using larger capacity water tankers, and diesel tankers by reducing number of trips for refill.
- ▶ Idling policy for parked vehicles.
- ▶ Strategies in conservation of Water and Energy.
- ▶ Hiring of locals from the project location.

EQUIPMENT

Equipped with state-of-the-art machinery, modern (latest model), and a vast array of resources, including bulldozers, excavators, and specialized tools, we are prepared to tackle projects of any scale with efficiency and precision.
